Project

Field(s) Theatre and puppetry. Inclusive arts

Description We would like to partner in any project related to the inclusion of people with mental illnesses in cultural activities (theatre, puppetry, etc.) with the following objectives:

- to improve the employability in the ICC sector, through training activities for these underrepresented groups who would like to work as artists and professional techniques within the cultural sector and also through training activities for cultural professionals in order to teach them how to teach and work with these groups.
- To showcase the cultural works emerging from the cooperation process (with disabled and non-disabled artists)
- Audience development activities
- networking among cultural organization working with

underrepresented groups in order to identify best practices, share knowledge, etc.
